

SPRING 1 – 2025

# NEWSLETTER

*A place to learn, achieve and grow*

## Dates for your diary

### FEBRUARY

- 13th - Break up for the half term holiday
- 14th - STAFF TRAINING DAY
- WB 17th - SCHOOL HOLIDAY (1 week)
- 24th - Back to nursery (spring 2)

### MARCH

- 5th - World Book Day (book character dress)
- 21st - World Down Syndrome Day (wear odd socks to nursery)

### APRIL

- 1st - SEND parent coffee AM & PM
- 9th - Easter family activity session
- WB 14th - SCHOOL HOLIDAY (2 weeks)
- 16th - Primary school place offer day
- 28th - Back to nursery (Summer 1)

### MAY

- 5th - Bank holiday (nursery closed to all)
- 7th - SEND parent coffee AM & PM
- 14th - Photographer in nursery today
- 21st - Early reading parent workshop
- 23rd - Break up for the half term holiday
- 26th - SCHOOL HOLIDAY (1 week)

### JUNE

- 2nd - Back to nursery (Summer 2)
- WB 2nd - Parent consultation meetings
- 25th - Parent workshop—transition

### JULY

- 2nd - SEND parent meeting
- 17th - Last day of provision
- 18th - Graduation event at Cannon Hill Park (provision closed for all children)

**Executive Head Teacher:** Sam Richards

**Nursery Manager:** Janine Maidment

**SENCO:** Gail Goldberg

**Teacher:** Jason Lee

**Office Manager:** Amna Bibi

**Admin Assistant:** Shabnam Hussain

**Nursery Practitioners:** Kaneez Rafique, Naz Ali, Sabah Kabir (mat leave), Shazeha Akhtar, Farkhanda Jabeen & Shazia Badaruddin

## Head Teacher's message

Dear Parents and Carers,

Thank you for reading our Spring 1 newsletter.

**Federation development day—Friday 14th February:** Staff at Jakeman are visiting another of our 9 Federation nursery schools today for them to share their Early Years practice and learning spaces. E hosted last year as part of staff professional development. We are very proud to continue providing the very best educational offer across our Federation of nursery schools. We'll also be working collaboratively with our cluster school (Gracelands Nursery School) in the afternoon

to explore our approach to inclusion and supporting children with Special Educational Needs and/or Disabilities (SEND).

**What is coming up?** We try our very best to keep our website up to date with what is coming up in the calendar. Link: <https://www.jakeman.bham.sch.uk/> (bottom of home page, 'What's On' box)

**Nut free school:** Please can we remind parents that we are a NUT FREE SCHOOL, food containing nuts poses an extremely high risk to our children with nut allergies. We are finding several occasions where children have nuts in their pockets or bags when they come to nursery. Please also be particularly aware of hidden nut products such as chocolate spread and filled crepes that contain hazelnut.

**Fruit donations:** Thank you very much for your donations of fruit. We provide toast and fruit/vegetable snacks for the children every day. 1 piece of fruit donated daily or 5 pieces for the week helps us to do that. Items such as apples, bananas, pears, satsumas, cucumber and carrots are gratefully received.

Finally, the end of the month will soon be upon us and I wish all families that will be observing, a blessed Ramadan. *Sam*

*"When one flower blooms,  
spring awakens  
everywhere."  
John O'Donohue*

## Shout Out!

We would like to give a big shout out to Janine who successfully completed her National Professional Qualification for Early Years Leadership (NPQEYL). Well done, Janine!

Department for Education

## WE ARE A UNICEF GOLD RIGHTS RESPECTING SCHOOL

### Children's rights are learned, understood and lived in this school.

## CURRICULUM FOCUS

## SPRING 2

This half term stories, such as 'Super Worm' and 'The Tiger Who Came to Tea' have supported conversations around caring for others, sharing, being kind, danger and risk taking. Children have shown a particular interest in the natural world and where worms live, they have wanted to care for the worms; this opened up discussions around what worms eat and talking about healthy eating and portion sizes (linking with 'Mickey me size' Startwell character)

Our 2-year-olds have enjoyed a range of stories, such as 'Five Little Ducks' and 'The wheels on the Bus'. These books promote rhyme and repetition which has supported children's early vocabulary development.

Art work has evolved around Vincent Van Gogh where children have explored different media for creating their work: using paint, pastels and ICT. They have shown an interest in blending colours and recognising change. Our younger children (2-3s) have enjoyed using different brushes and rollers for different purposes. They have also explored using their hands to mix colours together.

All children celebrated 'Lunar New Year'. Their understanding of this celebration was promoted through storytelling and visual props. Children engaged in cooking activities where they prepared, made and shared food such as noodles and stir fried vegetables.

## ATTENDANCE INFORMATION

Attendance autumn term	
	Attendance %
Big nursery	81%
Little nursery	81%
<b>All</b>	<b>81%</b>
Attendance spring term to date	
	Attendance %
Big nursery	82%
Little nursery	85%
<b>All</b>	<b>83%</b>

The first half of the spring term has seen a slight increase in attendance—keep it up children and parents/carers! :-)

We want every child to access as much of their education entitlement as possible.

Our aspiration is to reach 90% attendance.

It can be tricky to know when to keep your child off school when they have signs of illness.

The NHS guidance 'Too Ill For School?' is useful to refer to if you are unsure:

### Too ill for school?

[RRSA links](#)

United Nations Convention on the Rights of the Child:

**Article 3:** best interests of the child

**Article 28:** right to an education

## ATTENDANCE MATTERS

*If you do keep your child at home, it's important to phone nursery on the first day. Let them know that your child won't be in and give them the reason. If the phone is engaged, please leave a message.*

## SPRING 2

We will be exploiting opportunities to engage in the natural world by taking part in spring park walks (for our 3&4 year olds).

In nursery, the children will plant seeds ready for our summer harvest of fruit and vegetables, they will then use these to cook healthy foods. They'll learn about the

importance of Fay's 5 a day (Startwell) and sustainable living through the process of growing our own fruit and vegetables.

The children will be exploring 'rock' music. Moving in response to rhythms that children hear is an integral progressive skill in dancing. In rock, the drums and bass usually lock in with each other and stick to a tight pattern, creating an obvious rhythm from which to move to. The performative nature also allows children to express themselves through their movements and actions.

# Startwell

## COMMON MISCONCEPTIONS:

Fruit based snacks that are regularly advertised and attractive to young children, such as...

...contain 'free sugars' and are not suitable as an alternative to fresh fruit or vegetables.

See the information page coming up to view the sugar content of some of these items.

I'm Fay 5-a-day and I encourage children and adults to eat the recommended 5 portions of fruit and vegetables per day. Portion sizes depend on size and age. A child's portion size for 5-a-day is roughly what fits in the palm of their hand.

Look at the Startwell website for more tips and advice:  
<https://startwellbirmingham.co.uk/about-startwell/>

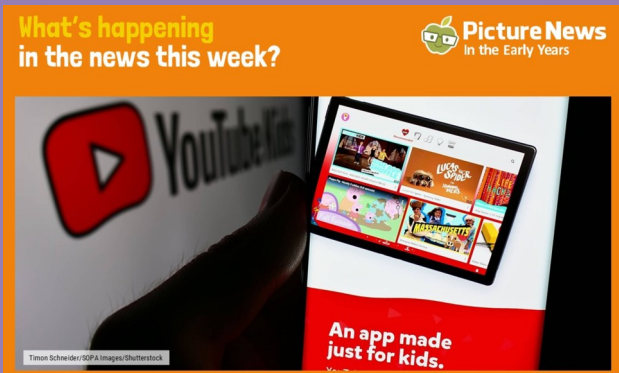

## SAFER INTERNET DAY

The internet can be a magical place for children to learn and explore. But just like crossing a road, they need guidance to stay safe. Teaching children how to keep themselves safe forms part of our general curriculum, but always we look deeper into internet safety again on Safer Internet Day. In nursery, we have linked the theme with a recent 'Picture News' story:

**Story:** The UK government's culture secretary, Lisa Nandy, has written to video-sharing platforms, such as YouTube and TikTok, requesting they actively share more educational content for children.

**Question:** What do you enjoy watching or playing on a screen? What would you do if you saw something that made you scared or uncomfortable?

At such a young age, parental supervision is essential when children are exploring the internet. Also see the poster on the final page for tips on screen time with young children, and advice for parents and carers. Together, let's build awareness about staying safe online.

Check out these helpful links to get involved:

## SAFEGUARDING UPDATE FOR FAMILIES

### A safer world for all our children

The following website shares very important information and tips on keeping children safe: <https://capt.org.uk/>

The safety tip for this newsletter comes from a recent urgent warning shared by the government, and subsequently by the Child Accident Prevention Trust:

#### KEEP WATER BEADS AWAY FROM UNDER 5s!

With their bright colours and squishy feel, water beads are especially appealing to young children. When dry, water beads are tiny and can easily be swallowed without detection.

As they bathe in stomach fluids, some can expand to 400 times their original size, posing a serious risk of blockage in a child's bowel/

Some water beads grow up to the size of golf balls.

#### The dangers of water beads video

2 Snacks Max

Fay 5 a Day

# Processed Fruit Snacks

There are a lot of processed fruit snacks that are marketed at our Early Years children such as fruit winders, stars, peelers, strings, flakes etc. These foods are classified as Ultra Processed Foods and aren't suitable for our Early Years children.

These food products are made from fruit juices and purees and the sugar in them is classed as free sugar, which attack the teeth easier compared to the whole/fresh fruit. A diet high in free sugars is linked to poor oral health and overweight in children. They are not suitable foods to provide as a snack or part of a packed lunch.

A healthier and less expensive alternative would be a whole piece of fruit (or cut-up pieces of whole fruit) which contain vitamins, minerals and fibre that children need.

	Free Sugars Per 100g	Free Sugars Per Serving	Teaspoons of free sugar per serving
	61.2g	18.4g	 x4.5
	61.8g	12.4g	 x3
	58.0g	9.3g	 x2
	70.0g	8.3g	 x2
	65.0g	7.7g	 x2

1teaspoon = 4g sugar

Free sugars are defined as 'All sugars naturally present in fruit and vegetable juices, concentrates, smoothies, purees, pastes, powders and extruded fruit and vegetable products. This includes pureed legumes, pureed dried fruit and juice and syrup present in canned fruits and vegetables

**Action on Sugar** A high free sugar intake increases the risk of dental caries (tooth decay) and higher energy intakes

# What Parents & Carers Need to Know about TODDLERS & SCREEN TIME

The toddler years are full of excitement, exploration and energy. It's a critical time in children's development, when brain connections are rapidly forming. Youngsters often begin to discover devices around this age, as they learn to communicate with friends, play games and watch videos (Ofcom recently found, for example, that one in five 3-4-year-olds in the UK uses social media). These activities can make a child happy and relaxed but have a damaging impact if overused. Setting screen time limits for toddlers can be a challenge, so we've pulled together some suggestions for making sure your little one is interacting with the online world in a safe, healthy way.

## ONLINE SAFETY CHECKLIST

### ✓ PARENTAL CONTROLS

Children need to be shielded from content that's not age appropriate. You can do this by adjusting parental controls and safe search settings on the devices, apps and games they use.

### ✓ ONGOING SUPERVISION

Try to stay engaged and present in what your child is doing digitally. Make time to talk about what they enjoy and how they can stay safe online.

### ✓ OFFERING HELP

Teach your toddler to ask for help – and that they should always tell a trusted adult if they're unsure about anything to do with a device, or they see or hear something that makes them scared or upset.

### ✓ COMMUNICATION IS KEY

Emphasise that your child should check with you before they do anything online for the first time – such as watching a new show, playing a new game or exploring a new app.

### ✓ FACE TO FACE IS ACE

Support toddlers' development of language and other skills by prioritising games or apps that encourage face-to-face interaction – like learning to read or count with an adult.

## Advice for Parents & Carers

### MODEL IT

Your toddler is watching and learning from you whenever you pick up your phone. Even babies are aware of screens and the attention their parents give to them. By showing you know when to put your phone down and focus on something else, you're modelling an important behaviour for them.

### CONTROL IT

Use tech to control tech. Most devices and individual apps have settings that allow you to restrict screen time. Decide on the right length of time and use the settings or a timer to block access. This is especially useful for very young children, who simply see it as the device 'turning off'.

### ANNOUNCE IT

When a toddler's screen shuts off suddenly, it can lead to frustration and tears. Let your little one mentally prepare for the end of screen time by announcing they have five minutes left, two minutes left and so on. You could also set an egg-timer, alarm or buzzer to go off just before time's up.

### DELAY IT

Try to avoid letting children start their day with screen time. Once they're online, it can be hard to get them back offline – and can set a negative tone for the rest of the day. Routine and structure are important for toddlers, so encourage them to enjoy some other activities before the screens go on.

### TRADE IT

You could try offering rewards and alternatives in exchange for screen time – for example, having a device-free day to get a playdate with a friend at the weekend, or skipping screen time one evening in return for a trip to the ice cream parlour tomorrow.

### EARN IT

Screen time can definitely be used as a reward. You could opt for the classic "no screen time until you've tidied up your toys" or you could get creative and award screen time in relation to successful tasks: eating all of their vegetables earns 10 minutes on their device, for example.

### REMOVE IT

Keep family mealtimes, social gatherings, children's bedrooms and other important occasions and places screen free. Remember to turn off TVs that you aren't watching, because even background noise can distract from you spending quality face-to-face time with your young ones.

### SWAP IT

Put together a bag of things that your children love playing with – and get them to help choose what goes in there (items like stickers, pens, small toys, Lego or teddy bears are ideal). Then encourage them to pick something to play with from "the special bag of fun" instead of staring at a screen.

## Meet Our Expert

Cayley Jorgensen is the director of FaceUp South Africa: a reporting system currently being used to combat bullying in schools and businesses around the world. FaceUp helps to give a voice to bystanders by encouraging them to speak up.

# Keep water beads away from young children

Children love water beads. But it's really dangerous if a young child swallows them.

They expand in the belly and can block the bowel. Some grow as big as golf balls.

A child may need major surgery to remove them. So please keep them away from young children.

If you suspect a child has swallowed a water bead, get medical help straight away.
